

5.7	Traffic Manager	5-6
	Responsibilities for Hazardous Materials Shipments	5-6
5.8	Environmental Protection Department.....	5-7
	Compliance Role of EPD	5-7
	EPD's Environmental Analysts.....	5-7
	For More Information	5-8
5.9	Other Organizations Supporting HMPT Safety Activities	5-8
	LLNL Assurance Office	5-8
	Riggers from the Plant Engineering Department	5-8
	Container Design, Modification, or Repair Services from Plant Engineering.....	5-8
	Protective Force Division.....	5-8
	Business Services Department's Fleet Management.....	5-8
5.10	Users and Generators of Hazardous Material, Substances, and Waste	5-9
	Responsibilities of Users and Generators of Hazardous Materials.....	5-9
6.	Safety Methodology.....	6-1
6.1	LLNL Safety Policies	6-1
	Policy: Safety.....	6-1
	Policy: HMPT Safety.....	6-1
	Employee's Responsibility for Safety.....	6-1
	Management's Responsibility for Safety	6-1
	Achieving a Safe Work Environment	6-2
	Limiting Exposure to Hazardous Agents	6-2
	Definition: ALARA	6-2
6.2	Containment, Communication, and Controls	6-2
	Definition: Containment	6-3
	Definition: Controls.....	6-3
	For More Information	6-3
6.3	Chemical Safety and Health Hazards Communication	6-3
	Material Safety Data Sheets	6-3
	For More Information	6-4
6.4	Guidelines for Traffic Management Safety	6-4
	Compliance with Traffic Laws.....	6-4
	Current Driver's License.....	6-4
	Speed Limits.....	6-4
	Internal Traffic Citations.....	6-4
	For More Information	6-4
6.5	Guidelines for Radiation Safety.....	6-5
	Policy: Onsite Transfers of Radioactive Materials	6-5
	For More Information	6-5
6.6	Guidelines for Explosives Safety	6-5
	Policy: Explosives Handling.....	6-5
	For More Information	6-5

6.7	Guidelines for Chemical Safety.....	6-5
	Management's Responsibility for Safe Chemical Handling	6-5
	Chemical User's Responsibility	6-5
6.8	Safety of Visitors and Non-LLNL Personnel	6-6
	Responsibilities of LLNL Hosts	6-6
	Contractors and Safety	6-6
6.9	Safety Audits	6-6
	Management Safety Reviews	6-6
	Assurance Office Reviews.....	6-6
	Hazards Control Reviews.....	6-7
	Review of the Onsite HMPT Safety Manual.....	6-7
7.	Category 1 Hazardous Materials.....	7-1
7.1	Introduction.....	7-1
7.2	Accountability.....	7-1
	Materials Management Section	7-1
7.3	Identification of Category 1 Hazardous Materials.....	7-1
	Types	7-1
7.4	Receiving and Transfer Operations for Category 1 Hazardous Materials.....	7-3
	Delivery Requirements of Category 1 Hazardous Materials.....	7-3
	Onsite Delivery Points	7-3
	Receiving's Storage Responsibilities	7-3
	Transferring Category 1 Materials to MMS.....	7-3
	Using Riggers to Transport Large Packages	7-3
	Transferring Packages between Buildings.....	7-4
7.5	Receiving and Transport of Explosives.....	7-4
	Delivery of Explosives at Site 300	7-4
	Handling Explosives.....	7-4
	Transfers of Explosives at Site 300.....	7-4
	LLNL Organizations Approved to Transfer Explosives.....	7-4
	Handling Explosive Wastes	7-5
	Disposal of Explosive Waste.....	7-5
7.6	Containment, Communication, and Control Policies and Implementation	
	Requirements for Explosives.....	7-5
	Hazards from Explosives	7-5
	Containment Policy for Explosives.....	7-5
	Containment Requirements for Explosives at Site 300.....	7-6
	Communication Policy for Explosives.....	7-6
	Communication Requirements for Explosives at Main Site	7-6
	Communication Requirements for Explosives at Site 300.....	7-6
	Controls Policy for Explosives.....	7-6
	Controls at the Main Site for Explosives	7-6
	Control Requirements at Site 300 for Explosives	7-7

7.7	Containment, Communication, and Control Policies and Implementation Requirements for Accountable Nuclear Materials, Safeguards	
	Categories I and II	7-8
	Hazards from Safeguards Categories I and II	7-8
	Containment Policy for Categories I and II	7-8
	Containment Requirements for Categories I and II	7-8
	Communication Policy for Categories I and II	7-9
	Communication Requirements for Categories I and II	7-9
	Controls Policy for Categories I and II	7-9
	Control Requirements for Categories I and II.....	7-9
7.8	Containment, Communication, and Control Policies and Implementation Requirements for Accountable Nuclear Materials, Safeguards	
	Categories III and IV, and Other Non-sealed Radioactive Materials	7-10
	Hazards from Safeguards Categories III and IV.....	7-10
	Containment Policy for Categories III and IV	7-10
	Containment Requirements for Categories III and IV	7-10
	Communication Policy for Categories III and IV	7-11
	Communication Requirements for Categories III and IV	7-11
	Controls Policy for Categories III and IV	7-11
	Control Requirements for Categories III and IV	7-11
7.9	Containment, Communication, and Control Policies and Implementation Requirements for Sealed Sources.....	7-12
	Hazards from Sealed Sources	7-12
	Containment Policy for Sealed Sources	7-12
	Containment Requirements for Sealed Sources	7-12
	Communication Requirements for Sealed Sources.....	7-12
	Controls Policy for Sealed Sources.....	7-13
	Control Requirements for Sealed Sources.....	7-13
7.10	Containment, Communication, and Control Policies and Implementation Requirements for Other Category 1 Hazardous Materials	7-14
	Hazards from Other Category 1 Hazardous Materials	7-14
	Containment Policy for Other Category 1 Materials.....	7-14
	Containment Requirements for Other Category 1 Materials.....	7-14
	Communication Policy for Other Category 1 Materials	7-14
	Communication Requirements for Other Category 1 Materials	7-14
	Controls Policy for Other Category 1 Materials	7-14
	Control Requirements for Other Category 1 Materials	7-15
8.	Category 2 Hazardous Materials.....	8-1
8.1	Introduction.....	8-1
8.2	Accountability.....	8-1
	Hazardous Waste Management Division	8-1
	Explosives as an Exception.....	8-1
8.3	HWM Division Facilities	8-2
	Description of HWM's Main Site Facilities.....	8-2
	HWM's Waste Handling Operations.....	8-2
	Description of HWM's Site 300 Facility	8-2

8.4	Identification and Hazards of Category 2 Hazardous Materials.....	8-3
	Types of Category 2 Hazardous Materials	8-3
	Hazardous Solid and Liquid Wastes	8-3
	Solid and Liquid Low-Level Radioactive Wastes.....	8-4
	Transuranic Wastes.....	8-4
	Mixed Wastes	8-4
	Pressurized Gas Cylinders.....	8-4
	Hazardous Waste Samples.....	8-4
	Liquid Waste Retention Tank	8-5
8.5	Waste Generator's Responsibilities in Packaging and Transferring Category 2 Hazardous Materials.....	8-5
	The Generator's Responsibilities	8-5
	Packaging Hazardous Waste for Transfer	8-5
	Placing Waste Containers on Pallets	8-6
	Waste Pickup and Onsite Transfers	8-7
	For More Information	8-7
8.6	Transport of Category 2 Hazardous Materials	8-7
	Waste Transport and Schedule at Main Site	8-7
	Transfers between HWM Division's Main Site Facilities.....	8-7
	Waste Transport at Site 300	8-8
	Waste Transport from Site 300	8-8
8.7	Containment Policy and Implementation Requirements for Category 2 Hazardous Materials.....	8-8
	Containment Policy for Category 2 Materials	8-8
	Containment Requirements for Category 2 Hazardous Materials.....	8-8
	Containment Requirements for Radioactive Materials	8-9
	Containment Requirements for Pressure Vessels and Cylinders	8-9
	Transport of Liquid Waste.....	8-9
8.8	Communication Policy and Implementation Requirements for Category 2 Hazardous Materials.....	8-9
	Communication Policy for Category 2 Materials.....	8-9
	Communication Requirements for Category 2 Materials.....	8-10
	Labeling Requirements for Category 2 Materials	8-10
8.9	Control Policy and Implementation Requirements for Category 2 Hazardous Materials.....	8-11
	Control Policy for Category 2 Materials.....	8-11
	Control Requirements for Category 2 Materials.....	8-11
8.10	Containment, Communication, and Control Policies and Implementation Requirements for Hazardous Waste Samples	8-12
	Containment Policy for Hazardous Waste Samples.....	8-12
	Containment Requirements for Hazardous Waste Samples.....	8-12
	Communication Policy for Hazardous Waste Samples	8-12
	Communication Requirements for Hazardous Waste Samples	8-12
	Control Policy for Hazardous Waste Samples	8-13
	Control Requirements for Hazardous Waste Samples	8-13

9.	Category 3 Hazardous Materials.....	9-1
9.1	Introduction.....	9-1
9.2	Accountability.....	9-1
	Materials Distribution Division.....	9-1
9.3	Identification and Hazards of Category 3 Hazards Materials.....	9-1
	Types of Category 3 Hazardous Materials	9-1
	Pressurized Gases.....	9-1
	Polychlorinated Biphenyls (PCBs)	9-2
	Mercury and Compounds	9-2
	Acids and Bases.....	9-2
	Other Toxic and Hazardous Materials	9-2
9.4	Transport of Category 3 Hazardous Materials	9-3
	Receiving and Transfer of Pressurized Gases.....	9-3
	User Pickup of Gas Cylinders.....	9-3
	Empty Gas Cylinders.....	9-3
	Cargo Tanks	9-3
	Receiving and Transport of Chemical, Alcohol, Oils, and Solvent Drums.....	9-4
	User Pickup of Drum Containers	9-4
	Receiving and Transfer of Packaged Chemicals.....	9-4
	User Pickup of Packaged Materials	9-4
	Break-Bulk Transfers.....	9-4
	Research Quantities.....	9-5
9.5	Containment, Communication, and Control Policies and Requirements for Pressurized Gases.....	9-5
	Containment Policy for Pressurized Gases	9-5
	Containment Requirements for Pressurized Gases	9-5
	Communication Policy for Pressurized Gases	9-5
	Communication Requirements for Pressurized Gases	9-5
	Control Policy for Pressurized Gases	9-5
	Control Requirements for Pressurized Gases	9-6
9.6	Containment, Communication, and Control Policies and Requirements for Flammable and Combustible Liquids.....	9-7
	Containment Policy for Flammable and Combustible Liquids	9-7
	Containment Requirements for Flammable and Combustible Liquids	9-7
	Communication Policy for Flammable and Combustible Liquids	9-7
	Communication Requirements for Flammable and Combustible Liquids	9-7
	Control Policy for Flammable and Combustible Liquids	9-8
	Control Requirements for Flammable and Combustible Liquids	9-8
9.7	Containment, Communication, and Control Policies and Requirements for Polychlorinated Biphenyls (PCBs)	9-8
	Containment Policy for PCBs	9-8
	Containment Requirements for PCBs	9-8
	Communication Policy for PCBs	9-9
	Communication Requirements for PCBs	9-9
	Control Policy for PCBs	9-9
	Control Requirements for PCBs	9-9

9.8	Containment, Communication, and Control Policies and Requirements for Mercury and Its Compounds.....	9-10
	Containment Policy for Mercury and Its Compounds	9-10
	Containment Requirements for Mercury and Its Compounds	9-10
	Communication Policy for Mercury and Its Compounds	9-10
	Communication Requirements for Mercury and Its Compounds	9-10
	Control Policy for Mercury and Its Compounds.....	9-10
	Control Requirements for Mercury and Its Compounds.....	9-10
9.9	Containment, Communication, and Control Policies and Requirements for Acids and Bases	9-11
	Containment Policy for Acids and Bases.....	9-11
	Containment Requirements for Acids and Bases.....	9-11
	Communication Policy for Acids and Bases	9-11
	Communication Requirements for Acids and Bases	9-11
	Control Policy for Acids and Bases	9-12
	Control Requirements for Acids and Bases	9-12
9.10	Containment, Communication, and Control Policies and Requirements for Other Category 3 Hazardous Materials	9-12
	Containment Policy for Other Category 3 Hazardous Materials	9-12
	Containment Requirements for Other Category 3 Hazardous Materials	9-12
	Communication Policy for Other Category 3 Hazardous Materials	9-13
	Communication Requirements for Other Category 3 Hazardous Materials.....	9-13
	Control Policy for Other Category 3 Hazardous Materials.....	9-13
	Control Requirements for Other Category 3 Hazardous Materials.....	9-13
10.	Nonroutine Hazardous Material Transfers.....	10-1
10.1	Off-Normal Hazardous Materials, Substances, and Wastes Transfers.....	10-1
	Arrangements for Off-Normal Transfers	10-1
10.2	Transfer of Oversized Equipment and Packages	10-1
	Use of the Riggers Group.....	10-1
	Transfer Requests from Responsible Groups	10-1
10.3	Vehicle Requirements	10-2
	Vehicles That Cannot Be Used to Transport Hazardous Materials	10-2
	Restrictions on Use of Trucks.....	10-2
	Use of Forklifts.....	10-2
	Swipe Sampling Vehicles.....	10-3
	Loading and Unloading	10-3
	Vehicle Tiedowns.....	10-3
10.4	Stock Chemical Transfers	10-4
	Stock Chemicals from Central Supply	10-4
	Break-bulk Quantities	10-4
10.5	Firearms Transfers	10-4
10.6	Transfers of Explosive Shot Assemblies	10-4
	Packaging	10-5

Compatibility	10-5
Placarding.....	10-5
Applicability of Other Requirements.....	10-5
11. Personnel Qualifications and Training.....	11-1
11.1 HMPT Training Requirements.....	11-1
Minimum HMPT Safety Training Requirements.....	11-1
11.2 Training and Qualifications of Explosives Handlers.....	11-1
Management's Responsibility for Explosives Handlers	11-1
Training Requirements.....	11-1
Annual Review of Explosives Handlers	11-1
11.3 Training for Handlers of Radioactive Materials	11-2
Specialized Training Requirements for Handlers of Radioactive Materials	11-2
11.4 Training Requirements for Users and Generators of Hazardous Materials	11-2
Training for Hazardous Waste Generators	11-2
Training for Category 3 Users.....	11-2
12. Emergency Response, Occurrence Reporting, and Incident Analysis.....	12-1
12.1 Emergency Response.....	12-1
LLNL Emergency Personnel.....	12-1
Emergency Phone Numbers.....	12-1
Emergency Communications.....	12-1
Emergency Response Groups	12-1
Who's in Charge at the Emergency Scene	12-2
LLNL Fire Department	12-2
Protective Services Officers	12-2
Hazards Control Safety Team.....	12-2
The Role of Hazards Control at an Emergency Scene	12-2
Self-Help Zones and the Zone Supervisor.....	12-2
Assembly Points and Assembly Point Leaders	12-2
Periodic Emergency Exercises	12-3
Laboratory Emergency Preparedness Plan	12-3
12.2 Occurrence Reporting	12-3
Sources for Occurrence Reporting.....	12-3
Occurrence Reporting Procedure	12-3
Role of the LLNL Occurrence Reporting Office	12-3
12.3 Categories of Incidents.....	12-3
Three Categories of Incidents	12-3
Process of Categorizing Reportable Incidents	12-4
Verbal Notification	12-4
Follow-up Verbal Notification	12-5
Initial Notification Reports	12-5
Subsequent Written Reports.....	12-5
12.4 Incident Analysis.....	12-6
Assembling the Incident Analysis Team	12-6
The Role of the Incident Analysis Team	12-6

Types of Investigative Boards.....	12-6
Incident Analysis Manual.....	12-6
12.5 Categories of Spills and Emergencies.....	12-7
LLNL Policy on Spills and Emergency Response	12-7
Definition: "Small" Emergency.....	12-7
Definition: "Large" Emergency.....	12-7
12.6 Spills and Minor Emergency Response.....	12-7
Acids.....	12-7
Aqueous Hazardous Materials	12-9
Caustics	12-9
Flammable Liquids	12-10
Flammable Solids.....	12-11
Oxidizers	12-12
Other Toxic Materials	12-13
PCB-Contaminated Materials.....	12-13
Radioactive Materials	12-14
Unidentified Hazardous Materials.....	12-15
12.7 Vehicular Accidents and Emergencies Where Explosive Materials Are Present.....	12-15
Emergencies	12-15
For a Vehicle Accident with Spilled Explosives and No Fire	12-16
For a Vehicle Fire or Accident with Fire	12-16
For an Accident with No Fire and No Spill	12-17
13. Transportation Vehicle Operations	13-1
13.1 Transportation Operations	13-1
MMS Transport of Category 1 Materials.....	13-1
HWM Transport of Category 2 Materials	13-1
MDD Transport of Category 3 Materials.....	13-1
User Transport of Category 3 Materials	13-1
13.2 Loading and Unloading Operations	13-2
Policy: Loading and Unloading Hazardous Materials	13-2
Responsibility for Loading/Unloading Category 1 Materials.....	13-2
Responsibility for Loading/Unloading Categories 2 and 3 Materials.....	13-2
Loading/Unloading Requirements.....	13-2
13.3 Vehicle Safety Requirements	13-3
Vehicles Used to Transport Explosives.....	13-3
Vehicles Used to Transport Radioactive Materials.....	13-4
Forklift Requirements	13-4
13.4 Vehicle Tiedowns.....	13-5
Minimum Requirements for Tiedowns	13-5
Preparation Requirements for Category 2 Hazardous Materials	13-5
13.5 Maintenance and Inspection.....	13-5
Automotive Fleet Inspection Schedule.....	13-6
Daily Vehicle Inspection Forms	13-6
Hazardous Materials Loading Checklist.....	13-7

14.	Additional Environmental, Safety, Health, and Quality Assurance (ES&H/QA) Functions.....	14-1
